

Blue (WHITEPOPE VIP)

Gemini

'Cause you're lost in front of me
It's true, I'm losing you
'Cause you're lost in front of me
It's true, I'm losing you And you know it's alright,
When you're gonna bring down
Take everything and live for the moment,
It's only gonna bring you down tonight When your locked up in my view,
It's true I love you
When your locked up in my blue,
It's true I love you And you know it's alright,
When you're gonna bring down,
Take everything and live for the moment
It's only gonna bring you down
Bring you down
Bring you down When I'm lost I'll come to you,
So blue, I'm feeling you,
When I'm lost I'll come to you,
I'm blue, I feel you And you know it's alright,
When you're gonna bring down,
Take everything and live for the moment
It's only gonna bring you down
Bring you down
Bring you down And you know it's alright,
When you're gonna bring down
Take everything and live for the moment,
It's only gonna bring you down tonight
