

# Getting Better

## Status Quo

Getting better, getting better... (Repeated) Sometimes I feel like I can fly  
You take my hand and I electrify  
Your smile is driving me insane  
You are my sun, my moon, my rain Cause makes me feel like loving you  
And I know, it keeps on getting better  
That the skies have turned to blue  
Yes I know, it keeps on getting better Makes me feel like loving you  
And I know, it keeps on getting better  
Now the skies have turned to blue  
Yes I know, it keeps on getting better Getting better, getting better... (Repeated) Sometimes I feel like I can fly  
You take my hand and I electrify  
Your smile is driving me insane  
You are my sun, my moon, my rain Cause makes me feel like loving you  
And I know, it keeps on getting better  
now the skies have turned to blue  
Yes I know, it keeps on getting better Getting better, getting better... (Repeated) Makes me feel like loving you  
And I know, it keeps on getting better  
That the skies have turned to blue  
Yes I know, it keeps on getting better
