

# We Owned the Night

## Lady Antebellum

Tell me have you ever wanted  
Someone so much it hurts?  
Your lips keep trying to speak  
But you just can't find the words  
Well I had this dream once  
I held it in my hands She was the purest beauty  
But not the common kind  
She had a way about her  
That made you feel alive  
And for a moment  
You made the world stand still  
Yeah we owned the night You had me dim the lights  
You danced just like a child  
The wine spilled on your dress  
And all you did was smile  
Yeah, it was perfect  
I hold it in my mind  
Yeah, we owned the night When the summer rolls around  
And the sun starts sinking down  
I still remember you  
Oh, I remember you  
And I wonder where you are Are you looking at those  
Same stars again?  
Do you remember when? We woke under a blanket  
All tangled up in skin  
Not knowing in that moment  
We'd never speak again  
But it was perfect  
I never will forget  
When we owned the night Yeah, we owned the night  
Oh oh woah oh  
Oh oh woah oh  
Oh oh woah oh  
Oh oh woah oh
