Alive Again

Champion

You're driving me, alive again x2

No harm to me

In all your hands

No lines to cross

No lines to gain

You set me free

And we let it be

No harm to me

You're in, you'll seeYou're driving me, alive again x2

We all exceed we all pretend

Then again

We die in peace no worries at least

Please release me

You drive me all along

When i be wrong

Oh please be my ownYou're driving me alive again x2

Alive again...

You're driving me, alive again
