Waterfall

Ex Hex

Surely there was no one to guide us
You know what I mean
So weâ€™re gonna ride the river
Before we quit this scene

Youâ€™re my little waterfall oh oh (whoa)
I love to watch you roll and roll oh oh (whoa)

You took me to the party
And you hid behind the door
I think you stole my wallet
And passed out on the kitchen floor

Itâ€™s a chemical reaction oh oh (whoa)
I wanna show you fake affection oh oh (whoa)

Surely there was no one to guide us
You know what I mean
So weâ€™re gonna ride the river
Before we quit this scene

Youâ€™re my little waterfall oh oh (whoa)
I love to watch you roll and roll oh oh (whoa)

Itâ€™s a chemical reaction
And nothing more
I wanna show you my affection
But youâ€™re on the floor
