Like I Do

R Kelly

Listen shawty, can't nobody rock your body like the R
Listen shawty, can't nobody rock your body like the R
I ain't a doctor, can't save a life
To say I could I'd be outta my mind
I ain't no pro athlete, can't run for miles
That's another thing I won't even try
See, there's a lot of things that I can't do
Can't hear mistakes, I make a lot of
But in a couple of categories I do
I blow the competition out of the water
There's only 2 things in this world that I'm the best at, it's true
Number 1 is music and baby girl
Number 2, can't nobody work your body out like I do, like I do, like I do
Can't nobody work your body out like I do, like I do, like I do
I ain't a painter, ain't got a brush
To paint a portrait of love
I ain't no pilot, can't take you up
So you can fly through the heavens above
See, there's a lot of things I can't do
Can't hear mistakes, I make a lot of
But in a couple of categories I do
I blow the competition out of the water
There's only 2 things in this world that I'm the best at, it's true
Number 1 is music and baby girl
Number 2, can't nobody work your body out like I do, like I do, like I do
Can't nobody work your body out like I do, like I do, like I do
I can be your trainer, I can be your trainer
Come in health club and baby, let me train you
Bend it over, stretch, stretch, stretch
Baby, let me you train you
I can be your trainer, I can be your trainer
Come in health club and baby, let me train you
Bend it over, stretch, stretch, stretch
Baby, let me you train you
There's only 2 things in this world that I'm the best at, it's true
Number 1 is music and baby girl
Number 2, can't nobody work your body out like I do, like I do, like I do
Can't nobody work your body out like I do, like I do, like I do
Gonna make your body say

Come on baby, baby, oh baby
Forget about it, baby
Listen shawty, can't nobody rock your body like the R
