I Found Love

Quicksilver Messenger Service

Been waiting here a long, long time
Pain and trouble on my mind
You came along and made me see
Oh you lifted meShot up everything that my money could buy
Over and over, tryin' to find out why
I was a sinkin' ship on a stormy sea
Oh I found loveI found love in a baby's smile
I found love in an old man's eye
I found love in a lover's kiss
Ooh I found loveAll my friends thought I was cryin'
Strange to see a good man going down
I gave all I had to give
You came along, taught me how to liveI want to thank you each and every day
Thank you baby, for showin' me the way
I was a sinkin' ship on a stormy sea
Oh I found love, love, love
I found love
(Repeat)
