

# Tourniquet

[Jeremy Messersmith](#)

When I see you crying  
If your tears run out  
I will lasso you a thunder cloud When you're tired of trying  
I won't stay away  
I don't care what other people say When there's nothing left to do  
I pull you close and wrap my arms around you No, I won't let you slip  
I'll be your tourniquet  
No, I won't ever quit  
I'll be your tourniquet When you've been forgotten  
Labeled left for lost  
Given up, knocked down, and written off  
When you feel like dying  
Think you won't be missed  
I will be there in an milliminute When there's nothing left to do  
I pull you close and wrap my arms around you No, I won't let you slip  
I'll be your tourniquet  
No, I won't ever quit  
I'll be your tourniquet  
(repeated until the end)
