

# Kill Rock Stars

**NOFX**

Kill the rock stars, how ironic, Kathleen  
You've been crowned the newest queen  
Kind of like the punk rock Gloria Steinham  
Can't change the world by hating man  
Can't change the world by blaming men Just 'cause I don't know the reason you're so pissed  
Don't dare tag me misogynist  
I thought the goal here was mutual respect  
Not constructing a separate sect I wish I could have seen Courtney  
Demonstrate some real misogyny  
Can't change the world by hating men
