

Stay The Night

Zedd

[Hayley Williams]

I know that we are upside down
So hold your tongue and hear me out
I know that we were made to break
So what I don't mind. You kill the lights, I'll draw the blinds
Don't dull the sparkle in your eyes
I know that we were made to break
So what, I don't mind. Are you gonna stay the night
Are you gonna stay the night
Oh oh oh oh,
are you gonna stay the night? Are you gonna stay the night
Doesn't mean we're bound for life
So oh oh oh, are you gonna stay the night? [beat break] Are you gonna stay the night
Doesn't mean we're bound for life
So oh oh oh, are you gonna stay the night. I am a fire, you're gasoline, come pour yourself all over me
We'll let this place go down in flames only one more time
You kill the lights, I'll draw the blinds
Don't dull the sparkle in your eyes
I know that we were made to break
So what? I don't mind. Are you gonna stay the night
Are you gonna stay the night
Oh oh oh, are you gonna stay the night? Are you gonna stay the night
Doesn't mean we're bound for life
So oh oh oh, are you gonna stay the night
Night night night night night.... [beat break] ARE YOU GONNA STAY THE NIGHT [beat break] Are you gonna
stay the night (when we get burned)
Doesn't mean we're bound for life (we never learn)
So oh oh oh, are you gonna stay the night (Zedd: Are you gonna stay the night
Are you gonna stay the night
Oh oh oh, why are you gonna stay the night)
