Neighborhood

Tift Merritt

I saw you with somebody
That you don't love
You like to show her off
You like to think highly ofThe easy mistake that you made
She's a friend of a friend
A pretty fight in a dress
Just a goodbye againBaby, you can't run round
Honey, it don't look good
Baby, you can't run round
Just anybody in the neighborhoodSomeone else's dishes
Someone else's window
Someone else's engine
Underneath someone else's radioI know what they told you
'Cause I've seen the way that they do
I'm sick of the hard way
I'm gonna walk right up to you
Tell you, honeyBaby, you can't run round
Honey, it don't look good
Baby, you can't run round
Just anybody in the neighborhoodGo on and take my midnight
Go on and take it down
Go on, give it away, baby
To the stranger, you are livin' for
What stranger are you livin' for, now?Baby, you can't run round
Honey, it don't look good
Baby, you can't run round
Just anybody in the neighborhoodBaby, you can't run round
Honey, it don't look good
Baby, you can't run round
Just anybody in the neighborhood
