

# The Ghost

## Deer Tick

Hold on until the ghost appears  
That day is gonna last for years  
Strange wind is gonna blow through town  
Lightnin' is gonna strike us down  
Blue hills are lookin' good to me  
I go there when I'm fast asleep  
Ghost town and the desert wind  
Strange sounds at the worlds end  
And then the winds start to blow  
And the fire comes scorching down  
And then the sky disappears  
In the cloud with an awful sound  
And when you can't hold out  
Then you run to the underground  
Just a blue star hanging out in space  
Earth town is a lovely place  
Strange winds coming from the sky  
Lovers gotta say goodbye  
And then the winds start to blow  
And the fire comes scorching down, yeah  
And then the sky disappears  
In the cloud with an awful sound, yeah  
And when you can't hold out  
Then you run to the underground  
Look out before the ghost appears  
Look out before the ghost appears, yeah  
Strange winds  
No sky
