

What If?

Lemar

Yeah oh baby
Yeah, yeah, yeah, yeah
Yeah, yeah baby
Listen
Yeah Woah
Yeah, yeah, yeah, yeah (Woah)
Yeah ooh Baby
Everyday was the same old thing
Waking up out of bed
Put my shoes on,
And off to work
Just tryin'a get ahead
Jumped into my ride
To avoid the lights
Girl I took a different way
Corner of white hart lane
You were passing by
That's when I saw your face
Girl
[Pre-Chorus]What if I never got your name?
Where would I be right now
What if I would have changed one thing,
I would have been missing out
[Chorus]On all we've been through
Oh, oh
What if I never met you?
Don't know what I do
Oh, oh
What if I never met you?
Got so much to lose
Oh, oh
What if I never met you?
Baby I cant help thinking this

What if
Now looking back
I'm wondering
What if my alarm didn't ring?
It would be another girl

right here next to me
For true love I'd still be searching
Scary to think
Just a second later
We wud have never met
The timing was right
Fate was on our side
I'm so glad the lights were red
[Pre chorus][Chorus]It's amazing
How it all happened
Feels like every move I made
Caused a chain reaction
Who would have thought
Crusin' down that avenue
Wud change my life forever
Lead me right next to you
[Pre chorus][Chorus x2]Oh
What if I never made
Oh, oh, oh, oh
What if I never
What if we never
Oh
What if
