Love

Stealing Sheep

If I'm lonely and I'm cold
In the night I'll toss and turn
And then unfold
Your paper letters spell out love I read them over
And I find I'm not aloneAnd as I sit and read the ink
My pastel heart turns fuchsia pink
I'm not alone
The more I read the less I fear
Because I know that you are near
I'm not aloneI'm looking into the night
To find the words that you write, darling
Hanging on every line
So I can feel you with me, darlingL O V E spell it out so I can see your - love
L O V E spell it out so I can see your - love
L O V E spell it out so I can see your - love
L O V E spell it out so I can see your - loveI'm looking into the night
To find the words that you right, darling
Hanging on every line
So I can feel you with me, darlingL O V E spell it out so I can see your - love
L O V E spell it out so I can see your - love
L O V E spell it out so I can see your - love
L O V E spell it out so I can see your - love
