

I Hear You Calling

Chalice & Blade

Once in a month, when the moon is full
Some secret place shall ye gather.
Adore the spirit of me who is
Queen of all of the wise.

And I hear you calling (2x)

Sing and dance
Feast and make love
All in my name
For mine is the spirit in ecstasy
Mine is joy on Earth

And I hear you calling (2x)

Mine is the secret that opens the door
Unto the land of youth.
Mine is the cup of wine, of life.
Cauldron of Cerridwen.

And I hear you calling (2x)

I give freedom and I give peace
Reunion with those gone before.
I am the mother of all that lives.
My love is poured on the Earth.

And I hear you calling (2x)

I am the beauty of the green Earth
White moon among the stars.
I am the mystery of the waters.
Desire in the hearts of man.

And I hear you calling. (2x)

I call to Soul
Arise, come to me.
For I am the heart of nature.
And I give life to the universe.

For I am she.

And I hear you calling. (2x)

From me all things do proceed.
To me they must return.
May your divine, innermost infinite soul
Enrapture be embraced.

And I hear you calling. (2x)

Let my worship be in your heart and rejoice.
All acts of love are mine.
Let there be beauty, strength, and pleasure
All are my rites.

And I hear you calling. (2x)

And you who think to seek for me
Know that it avails ye not.
Unless you know the mystery
Look deep within.

And I hear you calling. (2x)

For the hunt
I have been with thee
Since the beginning of time.
And I am that which ye shall attain.
The end of desire.
