Drive

The Matches

Drive, drive, drive, d-d-drive, drive, driveDriving fast
To impress
Or not
Words just slip
Or trip over
Over lipsCar drive west
(Car drive west)
Sex drive thoughts
Sex (drive)What we know about sex
Learned from alcohol
What we know about sex
Learned from bathroom walls
We know about love
What little we know about love
What we know 'bout love
What little we know about love
Stole from rock and rollDriving past
Spots to slut
Or talk
Fingertips slip and
Trip over
Hems and zipsWhat we know about sex
Learned from alcohol
What we know about sex
Learned from bathroom walls
We know about love
What little we know about love
What we know 'bout love
What little we know about love
Stole from rock and rollNervous tic, nervous talk,
A glance, a grope, a giggle, a cough, a breath, a bust, a touch,
A pause a lust aWhat we know about sex
Learned from alcohol
What we know about sex, yeah
Learned from bathroom walls
We know about love
(What we know about, what we know about it)
What little we know about love
(what we know about, what we know about it)

What we know 'bout love
(what we know about, what we know about it)
What little we know about love
Stole from rock and roll
