

Forget You

Cady Groves

You, you
Must have been a long walk
Can't you make it across the other side of the tracks?
Then you ran into me and you make me believe in my own laugh.
And every time that we talk it's like we're taking a walk
Around our own little town.
But when we hang up the phone,
All I hear is alone,
I hate that sound!
I gotta put my heart to the test
Gonna wrap it in a bullet proof vest
Cause in time you'll be running to me
With flowers in hand, but until then
I won't forget you!

Chorus:

So when the stars come out at night
And we're watching the same sky
You can tell there's no surprise
I won't forget you!
It's like you fell from out of space
And you can bet your pretty face
You will never be replaced
I won't forget you!

It's just a matter of time
You know that what's mine it's yours
I put it all on the line!
And everyday I say I love you more than I did before
And I don't think it's a lie!
This is our bedtime story,
That we're gonna tell our kids,
And I'll watch you fall asleep while holding all three,
But until then I won't forget you!

Chorus:

So when the stars come out at night
And we're watching the same sky
You can tell there's no surprise

I won't forget you!
It's like you fell from out of space
And you can bet your pretty face
You will never be replaced

I won't forget you!
Oh, oh, oh, oh, oh you
Oh, oh, oh, oh, oh you
Oh, oh, oh, oh, oh you
Oh, oh, oh, oh, oh you

So when the stars come out at night
And we're watching the same sky
You can tell there's no surprise
I won't forget, forget, forget, forget you!

So when the stars come out at night
And we're watching the same sky
You can tell there's no surprise
I won't forget you!
It's like you fell from out of space
And you can bet your pretty face
You will never be replaced
I won't forget you!
