

Once In a Lifetime

12 Stones

Taking chances
Will they take their toll?
Will you focus or will you lose control Your eyes are open
Your path is chosen
You cant back down now
Youve come to falling down And now its time to stand up and take your best shot
You made it
Just take it
This might be your once in a lifetime (take your best shot)
Dont waste it
Or youll be that faceless
Cause its once in a lifetime,
So take your best shot Second chances
Will they come at all?
Is your mind set to use all self control?
Conscience speaking
That tells you nothing
That certain but certainly some things are worth it So now its time to stand up and take your best shot
You made it
Just take it
This might be your once in a lifetime (take your best shot)
Dont waste it
Or youll be that faceless
Cause its once in a lifetime,
So take your best shot Taking chances
Will they take their toll?
Will you focus or will you lose control?
Will you make it?
Will you make it?
Will you make it?
Will you make it? You made it
Just take it
This might be your once in a lifetime (take your best shot)
Dont waste it
Or youll be that faceless
Cause its once in a lifetime, so take your best shot
Its once in a lifetime, so take your best shot
So take your best shot.
