

Mass Hysteria

Bass-D & King Matthew

We are the pain

We are the shame

We've gone insane

Inside where no one's aroundI am to blame, for everything

I like this game, that you all

make me playI'm done being there for others

They have their pain and so do I

Don't need to feel it all over

I try to hold on and you bring me downWe are estranged

We are deranged

I can't explain

How you all break me apartI am to blame, for everything

I like this game, that you all

make me playI'm done being there for others

They have their pain and so do I

Don't need to feel it all over

I try to hold on and you bring me downWe wait, we hate

We try to get away

Mistake, my pain

It has been lead astray

I'm Looking around, I drop to the ground

Why does this have to end this wayFeeling numb, so long

Oh God it's just everyday

It's everythingNow I pray for all of them to go away!I'm done being there for others

They have their pain and so do I

Don't need to feel it all over

I try to hold on and you bring me down
