

Mass Hysteria

Bass-D & King Matthew

We are the pain
We are the shame
We've gone insane
Inside where no one's around I am to blame, for everything
I like this game, that you all
make me play I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down We are estranged
We are deranged
I can't explain
How you all break me apart I am to blame, for everything
I like this game, that you all
make me play I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down We wait, we hate
We try to get away
Mistake, my pain
It has been lead astray
I'm Looking around, I drop to the ground
Why does this have to end this way Feeling numb, so long
Oh God it's just everyday
It's everything Now I pray for all of them to go away! I'm done being there for others
They have their pain and so do I
Don't need to feel it all over
I try to hold on and you bring me down
