

You Taught My Heart to Sing

[Dianne Reeves](#)

We meet and it begins
The sound of violins
The song of birds high on the wing
You taught my heart to sing Why does this heart of mine
Feel like a valentine?
You smile and suddenly it's spring
You taught my heart to sing My heart was an empty shell
Then you came along
Now my heart's a carousel
Filled with song The miracle of you
Will last my whole life through
You're all I'll keep remembering
You taught my heart to sing My heart was an empty shell
Then you came along
Now my heart's a carousel
Filled with song The miracle of you
Will last my whole life through
You're all I'll keep remembering
You taught my heart to sing You taught my heart
You taught my heart to sing
You taught my heart to sing
