# Little Lungs

## An Horse

And I thought you had ruined it all
And I thought you were going to hell
And I thought I had ruined it all
And I thought I was living in hellBut I get it now
Yeah, I get it nowAnd they said that I had to be strong
And they said I should stick to the plan
And they said that it wouldn't take long
And they said just remember the planAnd I get it now
Yeah, I get it nowBut sometimes it gets a little cold inside
And I know you tried
Yes, I know you triedBut they told me, they told me
Things aren't always as they seem
They seem
They told me, they told me
I should just concentrate and breathe
Breathe, breatheAnd I thought I was doing okay
And I thought you were doing so well
And I know you were doing okay
But I know there is that deep well
That you won't look into
No, you won't look intoBut sometimes it gets a little cold inside
And I know you tried
Yes, I know you tried
But they told me, they told me
Things aren't always as they seem
They seemAnd they told me, they told me
I should just concentrate and breatheBreathe (with little lungs I)
Breathe (with little lungs you) [x 2]
Breathe (with little lungs I)Kate:
And I know you were doing okay
And I know you were doing so well
And you changed this all, you changed this all
And I didn't reply to your letter 'cause
No, I didn't reply to your letter 'cause
I'm not here yet, I'm not here yetDamon:
They said that I had to be strong
They said that I should stick to the plan
Breathe with little lungs we
Breathe with little lungs we

They said that it wouldn't take long
They said just remember the plan
Breathe with little lungs we
Breathe with little lungs weTogether:
Breathe (with little lungs we) x12Kate:
Breathe with little lungs we x5[leka]
