1000 Kisses

Ultrabeat - 1000 Kisses

Your face, your eyes
And every glance that you've given me
Your lips, your smile
And every word that you've spoken to me

If you light on the dark side of me
I believe it's so right, can't you see
Your lips, your smile
Ohh and a 1000 kisses from you

And a 1000 kisses from you, from you
A 1000 kisses from you, from you

If you light on the dark side of me
I believe it's so right, can't you see
Your lips, your smile
Ohh and a 1000 kisses from you

Your face, your eyes
And every glance that you've given me
Your lips, your smile
And every word that you've spoken to me

If you light on the dark side of me
I believe it's so right, can't you see
Your lips, your smile
Ohh and a 1000 kisses from you

And a 1000 kisses from you, from you
A 1000 kisses from you, from you
A 1000 kisses
