

Everything to You (Acoustic)

[Eric Himan](#)

EVERYTHING TO YOU

(words and music by Eric Himan, ASCAP) Guess you heard
all over town

big mouths are working overtime

with no slowing down we've got our checkered pasts

black and white like dominos

but that stuff is for beginners

this aint our first rodeo a heart that beats is a heart that aches,
everyone should feel this way I've been a lot of things to a lot of people

but this time I wanna be everything to you

when you hold my hand. I think I love you

I gotta tell you the truth I wanna be everything to you try as one may, you can't force the plan

when one puzzle piece won't fit,

you make room so the right one can whether kicked back on the couch

or driving this town to drink

I know when my world is right side up

cause you're smiling back at me a heart that beats is a heart that aches,
everyone should feel this way I've been a lot of things to a lot of people

but this time I wanna be everything to you

when you hold my hand. I think I love you

I gotta tell you the truth I wanna be everything to you a heart that beats is a heart that aches,

everyone should feel this way I've been a lot of things to a lot of people

but this time I wanna be everything to you

when you hold my hand. I think I love you

I gotta tell you the truth I wanna be everything to you
