Out Of My Mind

[Lasgo](#)

I?ve been waiting for tonight
You give me fever deep inside
It?s you and me together
I feel it in my soul
We can last forever
You just make me lose control
I can?t get you out of my mind
It?s silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love
I can?t get you out of my mind
It?s silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love
When you?re dancing close to me
It?s for everyone to see
It?s you and me together

I feel it in my soul
We can last forever
You just make me lose control
You and me
You and me
You and me
It?s you and me together
I feel it in my soul
We can last forever
You just make me lose control
I can?t get you out of my mind
It?s silly but I think about you all the time
All you have to do is give me a sign
To make me fall in love, love, love
I can?t get you out of my mind
It?s silly but I think about you all the time
All you have to do is give me a sign
To make me fall
