

# Her Words Destroyed My Planet

## Motion City Soundtrack

Maybe you were right after all  
Maybe I'm just bad news  
I've been drowning in memories  
Call it residual blues  
I fell asleep watching Veronica Mars again  
I still futz with that tourniquet  
I tried to squeeze on your dreams  
Slung it on, it's a perfect fit  
What do you suppose that means?  
My parents keep asking  
When you're planning on coming around  
If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet  
I'll stall before I start, I'll stall before I start anything at all  
Got a job at Uncommon Grounds  
I finally shaved off that beard  
Sold my X-box to Jimmy down the street  
I even quit smoking weed  
I'm taking an online course  
I'm learning to speak Japanese  
If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet  
I'll stall before I start, I'll stall before I start anything at all  
The things that used to mean so much to me  
Have gone the way of dinosaurs  
Hopes and dreams and everything  
All I want for you to be is happy or something  
I guess anything is better than the time you spent  
Hoping I got it sorted out  
I sent you a postcard  
But the post office sent it back  
They said the building's been torn down  
I just miss what I thought we both had  
If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet  
It's all my \*\*\* fault

If we'd only stayed together  
I might not have fallen apart  
But the words you served destroyed my planet  
I'll stall before I start, I'll stall before I start anything at all
