

# Slummin' In Paradise

Mandy Moore

I'm a long way off but still around  
Sitting on the couch, I'm watching you  
And if I take my time, all the others give in  
And you feel like you're standing in line  
Oh, no, no, no  
I just know that you're worth the wait  
It's of no concern  
It's a risk I'd gladly take from time to time  
So don't worry about yourself at all  
I'll hang your work up on my wall  
Hose you down and dress you up real nice  
With some brand new plans and a fancy car  
And try to place your superstar  
You can tell the story of your life  
Without slummin' in paradise  
I wonder how you feel, oh, do I?  
Standing on the corner, how's your view?  
From the other side, oh, Mr. Right  
See, it's not a pretty sight alone  
So don't worry about yourself at all

I'll hang your work up on my wall  
Hose you down and dress you up real nice  
With some brand new plans and a fancy car  
And try to place your superstar  
You can tell the story of your life  
Without slummin' in paradise  
You won't often see this letter  
Handed over right away  
I know the first time I found you wonderful  
So don't worry about yourself at all  
I'll hang your work up on my wall  
Hose you down and dress you up real nice  
With some brand new plans and a fancy car  
And try to place your superstar  
You can tell the story of your life  
Without slummin' in paradise  
Slummin' in paradise  
Slummin' in paradise
