## Slut

## **Big Star**

See that girl Watch her dance If I knew her name I wouldn't have to Sit on my handsIf my mouth don't work I get some help And she don't mind If I don't keep my hands To myselfYou're all right You put up such a good clean fight I'm afraid that you lose tonightSlut She may be a slut But she looks good to meYou're so clean, so refined You don't care to get messy Just to have a good timeShe's got saggy thighs And baggy eyes But she loves me in a way I can still recognize
