

My Friend

Glengarry Bhoys

I've gotta get out of here
you see the same shits been going down year after year
and i've gotta get out of this mind
its really not a nice place to hang for a whole lot of time my friend
so you wanna take a look and suddenly
you wanna tell me am i alright or am I still free
do you turn your head when I walk by you
and do you turn the lights down when the door bell rings My friend
and my friend
and I know I'm not what people say I am
Im doing the best you know i am
I'm changing every day
well please don't turn away I need you now
I need you more and more today right now
doing the best I can

so please don't walk away from me
and its not that often I call out your name
so can you help me this one time
I swear I'll never call out your name my friend
did I tell you you have a really nice place to stay
I know its not the ritz
well actually its just the alley way
I gotta get myself outta here
I gotta get myself outta here and I really need to make amends my friend
You're my friend

and I know I'm not what people say I am
Im doing the best you know i am
I'm changing every day
well please don't turn away I need you now
I need you more and more today right now
doing the best I can

I've gotta get out of here
you see the same shits been going down year after year
and i've gotta get out of this mind
its really not a nice place to hang for a whole lot of time my friend
