

A Day At the Races

Jurassic 5

Advisory - the following lyrics contain explicit language:

Music power
ExclusiveYo, my metaphor, my musical madness
Move and motivate those with musical talents, uhh
Read it in bold print, we holdin' it down
Lick a shot, hip-hop when we in yo' town
Uhh, master blaster sound
Freak the future far from here and now
With style, release increase the peace, uhh
Bubble with the beat 'til they feelin' the heat in the streetsNow each one, teach one, reach one, young gun
On one, listen to the warrior's drum
Beatin' up the block with the ghetto hop that knock
And make you wanna crash the spot
And unlock explode the alpha and omega code
(Boom)
With drum rolls and old soul, we uphold
And foretold to scores of six years ago
Fast flow from G. Rap to Kool MoeSupasyllable, major to the minimal
Every individual, bounce to the tempo yo
Lungs collapse and raps be trapped in
The only way to make it happen, jaw-jappin', fast rappin'Yo, I'm the hot dog that run the hottest monologue
In star poetic inserts and yes y'all
My speech is like holding two glocks apiece
The outreach that rock police
The super adventure men portend to put somethin' in bitches
Win when we write, the Emmy winner get hyped, off any printer
And I came to get it, hit it
Like operation push, operate the tushBlack octopus of soul, in inter-planetary patrol
I planted my gold, and low and behold
It's the brother doc, ready to rock-rock
Don't stop Hobbes, I known like the lumberjack chop chop
The wordsmith, I write in block letters of cursive
Curse my circus, serve this surface

And watch how the brother fet over
The fly Casanova with the frankincense odor
Bear witness to where riches'll make career bitches share pictures
When the ears get this ya brainses software'll glitches
Splatter your brains leave scattered remains of matter and stains
That'll explain how you was battled and slain
I get rude and go, to your show and use a row
Of fans to boo and throw you off 'til you lose your flow
A pro mean like Joe Greene when I blow theme
Put your whole team on pause like cold cream
Then show laughter when I flow faster, your hoe haveta
Go after her weave from the breeze when I blow past ya
I'm dapper plus ghetto and just pedal
When the dust settles we left in the rubble the crushed metal
Nurses with hearses sealin' conversed with lit purses
Spit fire, make you first to bit, try me
Like Osama, odoma', I'ma cause trauma
And homicides when I collide I get kamikaze
Kane baby, walk hard, the P-jects
On streets of Brooklyn I'm a crew of D-cepts
On streets of L.A. I'm a whole E-set
On tracks with Jurassic I be the T-Rex
Still that Gucci dressin', still that coochie pressin'
My pimp game smooth be-gets 'em
I don't use discretion, cop tends to be stressin'
Fuck explainin' it, who's he testing?
Finsta perform all physical forms
Leave your ass shakin' like a mystical song
Please Dumb, what type of shit was you on?
'Cause man to compress a nigga mean one less a nigga
All I want is my niggaz all recruitin' a slimy
All I want is my liver all polluted with Remi
Duel with any, bring it, I face-off
Son you out your league like Jordan was with baseball
Yeah, your majesty, word flash photography
Third class economy, blade slashed your artery
Nerve gassed anatomy, blurred past dramatically
Herbs hashed, my word splash packed agility
Never predictability
Maneuvers of mind fully designed 'cause I'm true to the rhyme
We do the sublime, crackin' yo' backbone, attackin' you wack clones
Vernacular right and exact, capital rap zone
That come back verbal assault rifle
We fight like Stokely Carmichael
Nope! We just like you
We broke and ain't no tellin' what we might do ain't no joke
Provoke the right to reverse to seek mercy
with the King Asiatic and Percy P
Ain't heard the worst of me, until your chest 3-D
Spit venom and burn your body like a STD
Put a 20 on the next brother steppin' to me wrong
I mess around a lick 'cause you done cheat on my theme song

This might seem wrong, but this is a mean song
Crushed like King-Kong, and just like ping-pong
Back and forth, I spit knowl' and toss, it's time to floss
My verbal affirmation is to always go off
When syllables slide you'll be enjoyin' the vibe
When consider it pride, it's J5When another deadly medley, camera action yo we heavy
Aim steady slash machete Mazeratti engine ready
Good and plenty don't be petty count the fetti and we jetti
Off to another city where we do our nitty gritty
We wild like Serengeti, tear it down let's seek and set it
Get ready, for the ride, verbally hand-glide
Write and stay tight, mission's in sight
Murderer worldwide the stage is yo' knife
