Rock Into Your Soul

Lisa Lisa

Advisory - the following lyrics contain explicit language:

You're gettin' tired of everybody that you know
And everyday somebody else is hangin' on
Just turn off the phone
Time to get your shit togetherThere's funky music on the radio
So kick off your shoes and blast it through the wall
Screw the neighbors callin'
Gotta let that rhythm getcha(Chorus)
Let the music Rock Into Your Soul
It's about the funk tonight
Feel the music ..... Feel the music
Musics gonna get you through it all
Let the music Rock Into Your SoulOnce you let the rhythm take control
It doesn't matter if it's blues or rock n' roll
If it's new or if it's old
It's just gonna make it better
You ain't got a reason not to let your body go
It's only you .... and your own four walls
Listen to it callin' .... The beat is gettin' hotter(Chorus)
Let the music Rock Into Your Soul
It's about the funk tonight
Feel the music ..... Feel the music
Musics gonna get you through it all
Let the music Rock Into Your SoulTake off your clothes
Dance around the room
You're all alone
Ain't nobody watchin' you
Put on a show..... Only your mirror knows
Just work it out
Feel the music(Chorus)
Let the music Rock Into Your Soul
It's about the funk tonight
Feel the music ..... Feel the music

Musics gonna get you through it all
Let the music Rock Into Your SoulLet the music Rock Into Your Soul
It's about the funk tonight
Feel the music ..... Feel the music
Musics gonna get you through it all
Let the music Rock Into Your Soul
