

Lifelines

John Mayer

Saw you sleeping on the couch tonight
Though it serves you right
Makes you luckier than I All the colors in the room have changed
The painting yesterday
Brother I discovered you We're pushing on
We're passing through
It won't be long 'til I walk with you Tonight I'm down
I'm inside out
Staring at the pictures of the album you forgot about Isn't it a shame?
Times have changed
But isn't it strange?
Lifelines stay the same We're never where we want to be
But that's okay with me
'It's just the way it is', we say It feels like make believe
You know that you're my history
Brother, I rediscovered you We're pushing on
We're passing through
It won't be long 'til I walk with you Tonight I'm down
I'm inside out
Staring at the pictures in the album you forgot about Isn't it a shame?
Times have changed
But isn't it strange?
Lifelines stay the same Round and round
Can't believe my heart has waited this long
All along we've been children in a cold world Where wonder was lost, everyday
If love was a compass
Oh, I've lost my way
