

Let You Go

Brian Mcknight

I hate to see you go
So after work you go
I hate to watch you leave
I prayed to god last night
That Monday wouldn't come
Maybe it's your style
Or the little things that you do
When I am with you girl is like heaven
Got me thinking about forever
[Chorus:] Anywhere you are girl just call
Doesn't matter any time at all
Dough you have to go away
I can't wait to have you here with me
Baby girl
I'll do whatever you say
Ain't no other way
Forget about whatever else and stay

With me
When I am alone
We stay on the phone
Though you are coming back
I need you... cross my heart
Girl you feel the say
Cause you are here with me
When I am with you girl is like heaven
Got me thinking about forever
[Chorus] I didn't know how could it be
I finally found someone so special to me
Now that I see
I don't want to let it go
I know that this is how it should be
[Chorus]
