

# Moonshine (feat. Cash Creek)

## Jody Medford

Put the sugar in the water, build a fire, make it hotter.

From the hopper to the copper, and its moonshine.

Ah, listen up children. Iâ€™ve got a story for ya.

Back in the hills, of North Carolinâ€™,

the sons of the south turn the water,

into moonshine.

The law came looking, with their flashlights,  
heard they were cooking in the middle of the night from the moonshines.

Picking up dust on a country road,

got another town, got another load,

of moonshine.

Yah, you can get it in a jug,

You can get it in a jar,

run out of gas, you can put it in your car. (Moonshine)

If you get it right, you can free your mind,

if you get it wrong, youâ€™re gonna go blind.

It ainâ€™t beer, whiskey, or wine.

Iâ€™m talking about moonshine.

Put the sugar in the water, build a fire, make it hotter.

From the hopper to the copper, and its moonshine.

Early in the morning, take a little sip,

an afternoon pull, or a late night nip,

of moonshine.

A little good corn liquor, sour mash,

pour white lightning in my stash,

of moonshine.

Blackberry, blueberry, peach, and grape.

Strawberry, cherry, and just straight up moonshine, yah.

Yah, you can get it in a jug,

you can get it in a jar,

run out of gas, you can put it in your car. (Moonshine)

If you get it right, you can free your mind,

if you get it wrong, your gonna go blind.

It ainâ€™t beer, whiskey, or wine.

Iâ€™m talking about moonshine.

Put the sugar in the water, build a fire, make it hotter.  
From the hopper to the copper, and its moonshine

You can get it in a jug,  
you can get it in a jar,  
run out of gas, you can put it in your car. (Moonshine)  
If you get it right, you can free your mind,  
if you get it wrong, your gonna go blind.  
It ainâ€™t beer, whiskey, or wine.  
No, it ainâ€™t beer, whiskey or wine.  
Iâ€™m talking about moonshine.

Put the sugar in the water, build a fire, make it hotter.  
From the hopper to the copper, and its moonshine.

Moonshine.  
Oh, yeah

Put the sugar in the water, build a fire, make it hotter.  
From the hopper to the copper, and its moonshine.
