

Let It Rain

Gotthard

Lady Jane, will we ever meet again?
The times we had, I count 'em day by day
All the pain that we gave each other then
Was not enough to wanna make us run Who did say this life will last forever
We're standing at the crossroad once again
All the things in life are growing slowly, in progress
I know, we got to listen to the flow Let it rain, let it rain
Till the sun comes back again
The answer is your only friend We walk this path, slowly step by step
We don't have to force it, just believe
There's a place deep inside, where we've never been before
I know we can be there, you and me Who did say this life will last forever
Now, we're standing at the crossroad once again
All the things in life are fading slowly in progress
I know, we got to listen to the flow Let it rain, let it rain, till the sun comes back again
The answer is your only friend
Let it rain, let it rain, 'cause I know we'll meet again
Freedom will be there in the end Hope you find your paradise
Wish you all the best of times
Have faith in love and please don't cry So, let it rain, let it rain, till the sun comes back again
The answer, is your only friend
Let it rain, let it rain, 'cause I know we'll meet again
Freedom will be there in the end So, let it rain, let it rain, till the sun comes back again
The answer, is your only friend
So, let it rain, let it rain, 'cause I know we'll meet again
Freedom will be there until the end, the end
