

# Of Doom

## Bathory

Hold high our banner black, the three flames in red  
Brothers and sisters  
Hail, proudly raise your heads  
Through you we've reached out to just every nation  
You kept us alive with your love and dedication  
Bathory Hordes is the united force, we are all born of one womb  
The mightiest of hordes born through faith and belief  
Hail now the sign of the black mark and of doom... You kept your faith, you mailed us your Hails  
You spread our name and commotion  
You are the ones who believes  
and supports and that's called shear bloody  
fucking devotion The creature with red eyes, the symbol we've chosen  
To guide us or fool us but together we can't lose  
Brothers and sisters under black moon  
Hail high the sign of the black mark and of doom...  
Wearing our name B.A.T.H.O.R.Y.,  
on T-shirts and badges, we salute thy  
You thrashing fucking lunatics forever you'll live in our hearts  
Hail high sign our faith the black mark...
