

# Psychic Hearts

Thurston Moore

I know you have/you've had a fucked up life  
Growing up in a stupid town  
Your mother was a mixed-up chick/chirp  
And your father he just fucked around  
A little too much for his own good  
I'd kill the bastard if I could  
I'd kill all the boys with their fucked up noise  
And all the bullshit they seem to enjoy  
The kids at school call you slut, nothing but  
And what the fuck are they into, the/those stupid fools  
Loser(s), asshole(s), suck all the luck  
Out of the world, the world with you/and you  
If I can get/give it back to you I will  
And/I'll kick their asses all over town  
All over town I'll/I'd turn it over  
And I don't even know you that well  
(But) what the hell, summer spell What's it like going out  
And/When no one knows what you're about  
Abused and used and cut in two/into  
The/By hollow man/men with nothing to do (You) laugh all the time (and) try to get high  
And try to hide behind thou lie/no lies They fucked your head up, that's for sure  
Your heart is ripped now/and wrapped in fur  
But you know that sex is pretty insane/pity and insane  
And magic seems (fit) to kill the pain  
And the things that go on inside your brain  
Make(s) you seem to think that you're to blame  
Don't think about it, grow/throw it out  
Love ah-all/'em all and say it loud  
Fight the scum( )bags that slap you around  
Scream(,) you're/be crazy, lost and found  
We don't have to tell you what is right  
We have all the faith it was not right/in what's not right Sadness is and sadness was  
And sadness will always be because  
Comfort comes around from the strangest of men I got no time for sad songs baby  
Don't need you to say I'm crazy  
Stick your tongue and you look at me  
And I will buy it obviously  
Push you down onto your knees  
Do you laugh away in sleaze You're not the only girl in town

But you're the only one that's got me down  
Psychic hearts go out to you  
(A) psychic heart go round/arrives to you(And) my prayer to you  
Is that you do all the things you set out to do  
(And) look/live your life the way you love  
But will you remember one thing for me  
I will always love you  
I will always love you
