

Let It Down

Edward Sharpe & The Magnetic Zeros

The Dawn fixed behind a curtain,
Two fingers of satin spun in the moonlight,
Playing the air - no home,
Spinning in the sunlight, remember us laughing
On Acid
Remember the forest- home.Let it down
Let it be
Let it heal
From memoryMember you, member me, member love
Memories.Sex, more like incest,
The violence of cartoons
On eggshells of platinum,
Burned in the fire - friends.
So then you're gone
To trade gold for pennies,
When our love was free
Remember you always - friend.Le it down
Let it be
Let it heal
From MemoryLet it down, let it rip, let it dust, let it fly
Member love,
Memories Memories Memories, Mmmm.
