# Still They Ride

## Journey

Jesse rides through the night
Under the main street light
Ridin' slowThis ol' town ain't the same
Now nobody knows his name
Times have changed, still he ridesTraffic lights, keepin' time
Leading the wild and restless
Through the nightsStill they ride on wheels of fire
They rule the nights
Still they ride, the strong will survive
Chasing thunderSpinning 'round in a spell
Woh, it's hard to leave this carousel
Round and 'round and 'round and 'roundStill they ride on wheels of fire
They rule the nightsStill they ride on wheels of fire
They rule the nights
Still they ride, the strong will survive
Chasing thunder through the nights
