If I Left You

Kelly Willis

If I left you, I wouldn't stay gone so long
If I left you, I'd worry how you got alongBut you left me alone here in my misery
That's not something I would do if I left youIf I left you, I wouldn't go out on the town
If I left you, I'd drag my heart along the groundBut you left me alone here in my misery
That's not something I would do if I left youYour actin' like I never cross your mind
I'm hold up feelin' like I'm losin' mineIf I left you, I'd call you every single day
If I left you, I'd wonder why I went awayBut you left me alone here in my misery
That's not something I would do if I left you, if I left you
