

If I Left You

[Kelly Willis](#)

If I left you, I wouldn't stay gone so long
If I left you, I'd worry how you got along But you left me alone here in my misery
That's not something I would do if I left you If I left you, I wouldn't go out on the town
If I left you, I'd drag my heart along the ground But you left me alone here in my misery
That's not something I would do if I left you Your actin' like I never cross your mind
I'm hold up feelin' like I'm losin' mine If I left you, I'd call you every single day
If I left you, I'd wonder why I went away But you left me alone here in my misery
That's not something I would do if I left you, if I left you
