

Misery

Hanson

Misery

[I.Hanson / T.Hanson / Z.Hanson]

2001 Jam 'N' Bread This time I won't take you back

Something is coming to you

This time I'm gonna breathe a breath

Walking on down the road I can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da da Last night I got off the bed

Cause I won't be the fool

This side the grass is greener than

The garden that I used to grow

Walking on down the road I can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da da

Misery

Misery I can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da da

Misery

Misery This time I won't take you back

"cause I won't be the fool
