Misery

[I.Hanson / T.Hanson / Z.Hanson]

2001 Jam 'N' BreadThis time I won't take you back

Something is coming to you

This time I'm gonna breathe a breath

Walking on down the roadI can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da daLast night I got off the bed

Cause I won't be the fool

This side the grass is greener than

The garden that I used to grow

Walking on down the roadI can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da da da

Misery

MiseryI can never promise that you'll never be lonely

But as long as we're together,

We can always only be misery,

la da da da da

Misery

MiseryThis time I won't take you back

"cause I won't be the fool
