

Junkie Doll

[Mark Knopfler](#)

Turnpike Lane, Turnpike Lane
You spiked my arm
But you missed the vein
Now it's all gone
But the scars remain Junkie doll, stuck on you
My junkie doll Turnham Green, Turnham Green
You took me high
As I've ever been
Now it's all gone
And now I'm clean Junkie doll, stuck on you
My junkie doll And a little bit of this'd get you up
And a little bit of that'd get you down
A little bit of this'd get you up
And a little bit of that'd get you down And a little bit of this'd get you up
A little bit of that'd get you down
A little bit of this'd get you up
A little bit of that'd get you down Turnpike Lane, Turnpike Lane
You took my heart
Pan American hill
Now rain or shine
It's all the same Junkie doll, stuck on you
My junkie doll Junkie doll, stuck on you
My junkie doll Little bit of this'd get you up
Little bit of that'd get you down
A little bit of this'd get you up
A little bit of that'd get you down And a little bit of this'd get you up
A little bit of that'd get you down
A little bit of this'd get you up
A little bit of that'd get you down
