

Disposable

Tori Darke

Said it was real, said it was right
Had me hanging on every word
And believing every line
 You got me good
 Boy, you got me bad
Now, I was outta your picture before the camera could flash
 It's like it went out style
 It's like I'm old news
You wanted to try me on like a temporary tattoo
 Guess it didn't look like you wanted to
 Like you wanted to

Disposable
Like something that you find and lose
 And I should've known
That's all I ever was to you
 When you used me up
 Pull me down
 You were done
 You threw me out
 Like I was disposable
 Oh, oh
 To you I was disposable

Get someone else of what you wanted
So you went ahead and found somebody new that's got it
 But she's gonna go out of style like they all do
You running out of room for your temporary tattoo
 'Cause they never looks like you wanted it to
 Like you wanted it to

Disposable
Like something that you find and lose
 And I should've known
That's all I ever was to you
 When you used me up
 Pull me down
 You were done
 You threw me out

Like I was disposable
Hmm, hmm
To you I was disposable

Like a pair of cheap sheets
From a truck stop
I cry at the bottom of the sea
The box like the penny on a pavement of a parking lot
That you don't pick up
You say "what the hell"
Boy, I'm not

Disposable
Like something that you find and lose
I should've known
That's all I ever was to you
When you used me up
Pull me down
You were done
You threw me out
Like I was disposable
Hmm, hmm
To you I was disposable

Hey hey, yeah yeah
