

# Love One Another Right

Clay Crosse

We do a pretty good job of throwing sticks and stones  
But everyone's got a closet full of skeleton bones  
No need to tear each other down  
'Cause we're all standing here on common ground  
Chorus:  
If we could love one another  
We could bring Heaven down out of the sky  
If we could love one another  
We could bring hate to its knees tonight  
Wouldn't every future be bright  
If we could love one another  
Love one another right  
We find it easy enough loving the latest trends  
Take something that's dead and make it our closet friend  
Imagine what this world could be  
If we worked as hard at loving you and me  
Repeat chorus
