Plague

Crystal Castles

I need you pure I need you clean Don't try to enlighten me Power to misconstrue What have they done to youInfants in infantry Rewrite their history Uproot their colony You're ripe for harvestingVirgin cells to penetrate Too premature to permeate They can't elucidate Never thought i was the enemyI am the plague I am the plagueThey fake sincerity Thy gifts don't give to me Now you've been annointed They've been asking for itInfants in infantry Rewrite their history Uproot their colony You're ripe for harvestingVirgin cells to penetrate Too premature to permeate They can't elucidate Never thought i was the enemyI am the plague I am the plagueI need you pure I need you clean I need you pure I need you clean
