Kick

Gene Loves Jezebel

What is it, what is it
That keeps me hanging around your door, door ?
What is it, what is it
That keeps me hanging around for some more of your love?New horizons, brand new shores
Keep me heading down highways, making it now
We found the last time, I'm sure
She's gonna kick up a storm and never want to let me goI'm not worried, no, I'm not worried, no, I'm not worried at all
I'm not worried, no, I'm not worried, no, I'm not worried at allI'm not worried, no, I'm not worried, no, I'm not worried at all
I'm not worried, no, I'm not worried, no, I'm not worried at all
Not at all
