

# Looking Down

## The Takers

Yeah, my shadow stretches far and free

Yeah, it's telling me what I could be

Could be'Cause I'm tired, of looking up

All the timeWe'll stand on top of the world

Looking down

We'll stand on top of the world

Looking downYeah, we'll set ourselves apart in time

Yeah, and then we'll leave it all behind

I'll rise'Cause I'm tired, of looking out

For the lineWe'll stand on top of the world

Looking down

We'll stand on top of the world

Looking downWe'll stand on top of the worldYeah, is anybody here like me?

Yeah, can you face the sound

And decide?We'll stand on top of the world

Looking down

We'll stand on top of the world

Looking downWe'll stand on top of the world

Looking down

To rise above on our own

Looking down
