

# Hype

## Tegan and Sara

One time in your life  
You've got the route in hand  
But the map is stuck They said it's not your fault  
The tires are tired  
Then the camera moves  
And your driver's been pulled And I, I have always felt this  
And I, I could never, I could never hear it So I turned it up  
And turned it on  
And turned it down  
Always the volume always the words Review the press and tell it like it is  
Your life is hype, your love is hype And I, well I will clench my own fist  
And I will always  
I will always wait Said, there's more,  
There's more than blood that beats through my heart  
My hands my feet  
Stuck between my tongue and my teeth We don't know  
So we wait for tomorrow  
We don't know  
So we wait for tomorrow  
We don't know  
So we only go forward Two times in your life  
You will trace the edge  
Sink your toes in Review my press and tell it like it is  
My life is hype my love is hype And I, well I will clench my own fist  
And I, I will always  
I will always wait Said, there's more,  
There's more than blood that beats through my heart  
My hands, my feet  
Stuck between my tongue and my teeth We don't know  
So we wait for tomorrow  
We don't know  
So we wait for tomorrow  
We don't know  
So we only go forward We go forward  
I wait up all night for you  
I wait up all night for you I wait up for you  
I wait up for you Wait for, wait for tomorrow  
Wait for, wait for tomorrow  
Wait for, wait for tomorrow

Wait for tomorrow  
Wait for, wait for tomorrow  
Wait for, wait for tomorrow  
Wait for, wait for tomorrow  
Wait for...  
Tomorrow  
Tomorrow  
Tomorrow  
Wait for, wait for tomorrow  
Wait for tomorrow
